

CREATE A MIURA-ORI FOLD PATTERN

Jesse L Silverberg, Arthur A Evans, Lauren McLeod,
Ryan C Hayward, Thomas Hull, Chris D Santangelo and Itai Cohen

- 1 Cut out along black line
- 2 Crease all red lines so that they form 'mountains' that point up off page
- 3 Crease all blue lines so they form 'valleys' that point down the page
- 4 Collapse all creases simultaneously so the Miura-ori folds flat
- 5 Make lattice defects by pushing vertices through themselves, 'popping'them into a new position

See an online video tutorial at tinyurl.com/mcokzag
