

In June 2014 Heathrow Terminal 2 | The Queen's Terminal opened to the public on time and to budget.

Arup worked in partnership with Heathrow's operational readiness team, collaborating with and coordinating over 160 different stakeholder organisations to ensure the terminal was delivering a great passenger experience from day one.

An essential part of Arup's role was to transfer learning and increase operational readiness capability at Heathrow, building the skills and experience of future leaders for the next phase of Heathrow's transformation.

BAE SYSTEMS

INSPIRED WORK

AN INSPIRED GENERATION.

As an engineering and technology company we're reliant on recruiting and retaining the most committed employees to maintain our talent pipeline. That's why we invest around £80M every year in skills and education programmes – from training 900 apprentices to working with more than 250 schools across the UK on engineering projects.

Technical excellence

Our expertise and deep insight into the interface between assets, systems, people and processes mean we can offer services that clients value and trust.

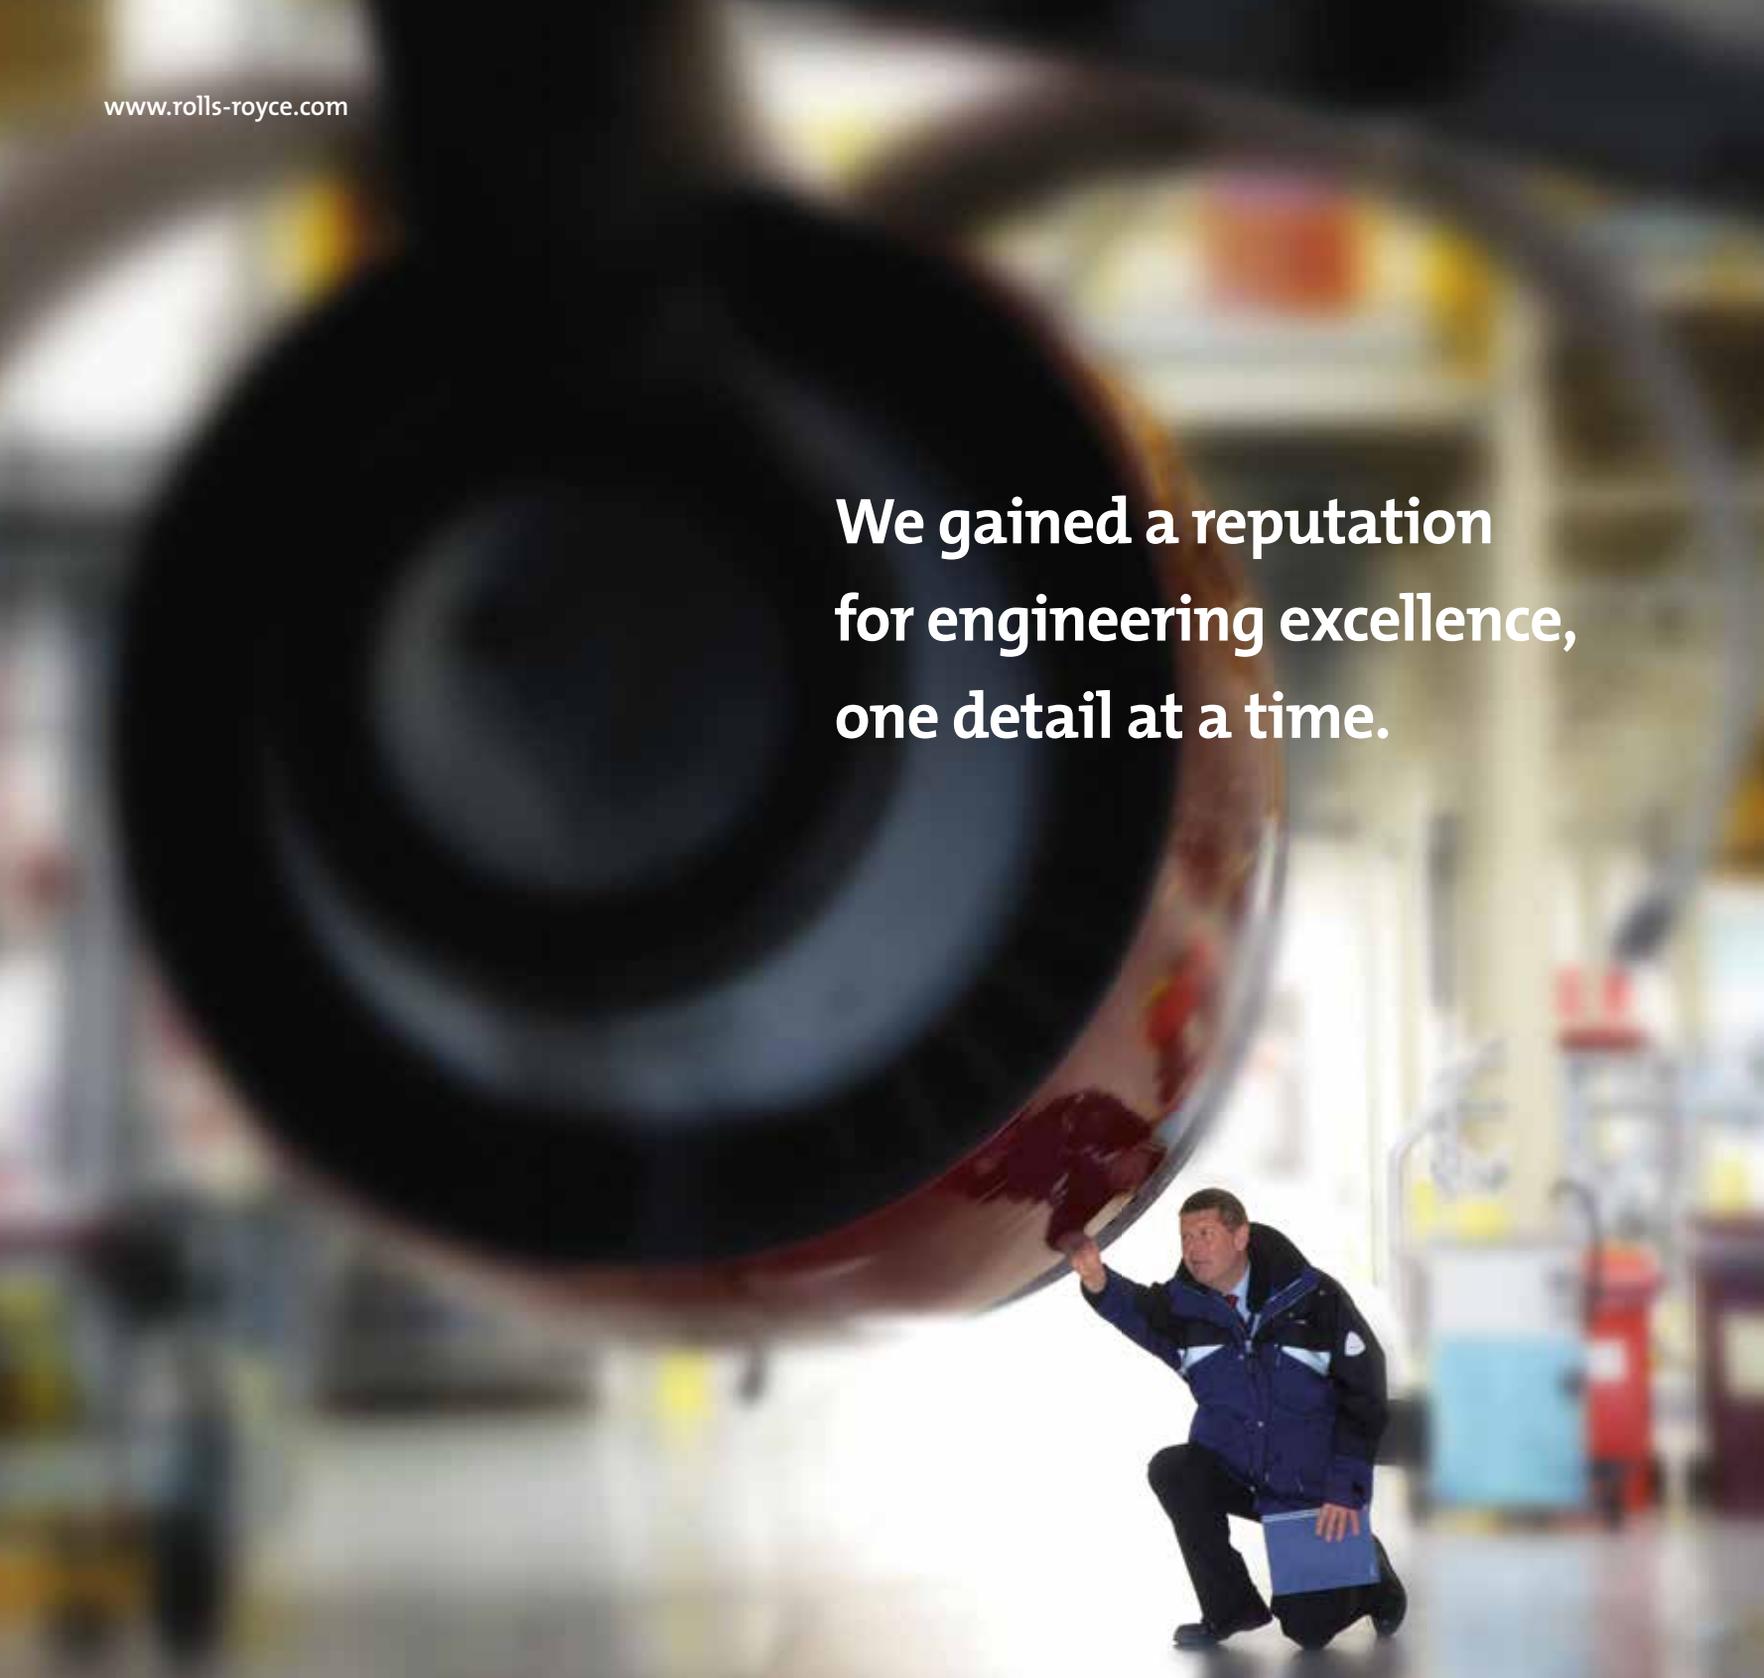

The difference we make on projects, large and small, has been vital in creating a safer world for today and for the future.

Working together
for a safer world

**We gained a reputation
for engineering excellence,
one detail at a time.**

We know it's the small things that make a big difference. In fact it goes a very long way towards explaining why Rolls-Royce has become a world-leader in power systems and services on land, at sea and in the air. With manufacturing and service facilities in 50 countries and customers in well over 150 countries, we place a great deal of importance on the detail in order to maintain the very highest standards that our name has become associated with. It's what our clients have come to expect and we don't do it lightly. Last year alone we invested close to £1billion in research and development of our products and services. And, like everything else we do, we did it one detail at a time.

Trusted to deliver excellence
